

Success Story

When I started Vision Therapy I hated to read and I didn't have the patience to sit in a chair that long. Since then my grades have made a huge jump up (about two letter grades!) and my reading skills have improved tremendously! My imagination has opened to a whole 'nother world! It is so amazing! When I used to write essays it would take me hours some times even days! This year I have been able to write english essays in under 45 minutes!

Thank you

Dr Shannon & Mattson,

Jessica Stender
